DIALING UP THE *Glamour*

Jan Showers and Zara Teltt reinvent a Dallas manse as a radiant epicenter for family gatherings, Deco antiques, and top-tier chandeliers.

A towering chandelier with custom glass leaf and branch details hangs from the ceiling high above the space, which is reminiscent of the century-old home's original architecture. The room is finished with a custom-painted mural of a lush garden, complete with trees, plants, and a small stream. The space is a true masterpiece.
