'I think a really good designer tells a story. As you walk through a space, there are always elements of surprise'

Main bedroom Enveloped in deep, party-coloured paint – 'Southern Pines' by Benjamin Moore – and 'White Blossom' wallpaper from Rag & Bone, this is a decadent bedroom that more than makes up for its drama with its taste in square footage. The 'Nebula' headboard by Vincent Davis from The Ironside Collection continues the green theme, as do the 'Pipistrelli' lamps by Martini & Lusa. Facing the bed is Carl Gustaf Hård's 'Kolmoukka' / 'Tongue' bench for Olof from Gensh Paley Park in custom striped upholstery. The moon-like orbs of Alfred Hales's 'Tangent II' pendant punctuate the space. gregorle.com See [Stockists](#) page for details. **22**
